

INSTALLING YOUR FLOATING SHELVES

1. Remove the metal bracket from the back of the shelf. You can use a flat head and a soft cloth against the edge to loosen bracket if needed.

2. Measure area you want to mount your shelf

3. Use a level to mark a straight line where shelf will hang

4. Locate studs in measured area and mark with pencil

5. Hold bracket against wall drill screws into studs

6. Use level to ensure to ensure bracket is level

7. After bracket is secured slide shelf onto

bracket

**We do not provide mounting screws.
